JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

### JAPAN.

#### Report on the prevalence of infectious diseases in Japan.

## YOKOHAMA, July 21, 1896.

SIR: I have the honor to forward the following report upon infectious diseases in Japan covering the period since July 13, the date of my last return, viz:

Cholera.—Kioto Fu, 1 case, 1 death; Osaka Fu, 1 case, no deaths; Tokio Fu, 10 cases, 4 deaths; Fukuoka Ken, 5 cases, no deaths; Ibaraki Ken, 2 cases, 1 death; Kagawa Ken, 1 case, no deaths; Kanagawa Ken, 2 cases, no deaths; Okayama Ken, 1 case, no deaths; Saitama Ken, 1 case, no deaths; Sidzuoka Ken, 1 case, no deaths; Wakayama Ken, 2

cases, 1 death; Yehime Ken, 2 cases, no deaths; total, 29 cases, 7 deaths. Smallpox.—Osaka Fu, 6 cases, 2 deaths; Tokio Fu, 8 cases, no deaths; Awomori Ken, 3 cases, no deaths; Chiba Ken, 1 case, no deaths; Fukuoka Ken, 2 cases, no deaths; Fukushima Ken, 2 cases, 1 death; Ibaraki Ken, 1 case, 1 death; Iwate Ken, 3 cases, no deaths; Kagoshima Ken, 4 cases, 5 deaths; Nagano Ken, 1 case, 1 death; Nagasaki Ken, 2 cases, 4 cases, 5 deaths; Nagano Ken, 1 case, 1 death; Nagasari Ken, 2 cases, no deaths; Okayama Ken, 1 case, no deaths; Saitama Ken, 2 cases, 2 deaths; Shidzuoka Ken, 1 case, 1 death; Yamaguchi Ken, 1 case, no deaths; Yamanashi Ken, 5 cases, 1 death; total, 43 cases, 14 deaths. Relapsing fever is decreasing, both as regards virulence and extent, dysentery, so far, shows no tendency to become violently epidemic, and

I have no returns of any further occurrence of plague in Formosa.

I am, sir, very respectfully, your obedient servant,

STUART ELDRIDGE, M. D., Sanitary Inspector, U. S. M. H. S.

Inspection of vessels at Yokohama.

## YOKOHAMA, July 21, 1896.

SIR: I have the honor to inform you that, since June 9, up to which time I have reported, I have inspected vessels as follows, viz : June 11, steamship *Glenogle*, bound for New York, via ports. June 15, schooner *F. E. Sanders*, bound for Port Townsend. June 18, steamship *City of Peking*, bound for San Francisco, via Hawaii. June 22, steamship Braemar, bound for Tacoma. June 25, steamship *Doric*, bound for San Francisco, via Hawaii. June 27, steamship Stathnevis, bound for New York, via ports. June 30, steamship Undaunted, bound for San Francisco, and steamship Mount Lebanon, bound for Portland, Oreg. July 3. steamship Strathgarry, bound for San Francisco. July 4, steamship China, bound for San Francisco, via Hawaii. July 7, steamship Tacoma, bound for Tacoma. July 13, steamship Glamorganshire, bound for New York, via ports; steamship Cedar Branch, bound for New York, via ports, and ship G. R. Skolfield, bound for New York, via Manila. July 14, steamship Belgic, bound for San Francisco, via Hawaii. All of the foregoing were free from infection with the exception of the steamship China, inspected July 4, from which I removed a Chinese suffering from smallpox. The vessel, after thorough disinfection and vaccination of all on board, was allowed to proceed on her voyage.

I am, sir, very respectfully, your obedient servant,

STUART ELDRIDGE,

Sanitary Inspector, U. S. M. H. S.
